

From the Use of Cigarettes. 7

Wilmington, N. C., March 7, 1892.
I hereby certify that my son became epileptic from the use of cigarettes, etc., and would have falling fits as often as 4 times a day. After using all medicines given by doctors in this city without any benefit I commenced the use of Pastor Koenig's Nerve Tonic and after only a few doses the fits left him and he improved otherwise in health.

There are many here who can testify to my son's condition and I am willing to prove to all who wish to know what Pastor Koenig's Nerve Tonic has done for my son, and I cannot say too much in praise of it.

Edward Murrin.

Dayton, O., September 8, '91.
I have tried Pastor Koenig's Nerve Tonic on a great number of sufferers, and found that in each instance it afforded relief.

Phosphate Mining.

Since the discovery of phosphate rock at Mt. Pleasant, Tenn., business in that section has been very active. It is stated that shipments of phosphate rock amount to from ten to twenty carloads per day, and that Messrs. Arnold & Cooper, of the Tennessee Phosphate Co., will in a few days put in a crusher near the mines, and other companies will also add crushing machinery soon.

What a Woman Can Do.

Last week I cleared, after clearing all expenses, \$355.85, the month previous 260 dollars and have at the same time attended to other duties. I believe any energetic person can do just as well as I have had very little experience. The Dishwasher is just lovely and every family wants one, which makes selling very easy. I do no canvassing. People hear about the Dishwasher and come or send for one. It is strange that a good, cheap Dishwasher has never before been put on the market. The Mound City Dishwasher fills this bill. With it you can wash and dry the dishes for a family of ten in two minutes without wetting your hands. As soon as people see the Washer work they want one. You can make more money and make it quicker than with any household article on the market. I feel convinced that any lady or gentleman can make from ten to fourteen dollars per day around home. You can get full particulars by addressing the MOUND CITY DISH WASHER CO., St. Louis, Mo. They will help you get started, then you can make money awful fast.

The New Hook Spoon Free to All.

I read in the Christian Standard that Miss A. M. Fritz, Station A., St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her ten 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made \$13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the oak. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home.

Dixie Notes.

The Winchester, Ky., Democrat says: "The paw paw is ripe and the mountain man is in his glory brewing paw-paw beer. It is a combination that leaves terror in its wake, and the effects of drink it would make the most partisan Republican yell for Bryan and Sewall. A fellow from over in Powell county was in town yesterday with a barrel of the stuff, but most of the boys fought shy of it, remembering their experience of last year."

Silas Adams, a saw-logger living about nine miles north of Russellville, Ky., on Muddy river, cut down an immense oak tree that stood on a hillside. It fell in a different direction from that intended and struck a large poplar, knocking it down. When the tree struck the ground the poplar burst and millions of bees flew out. Mr. Adams built a fire of leaves and the smoke soon drove the bees away, when he found that the poplar was a colossal beehive and contained about three barrels of the finest and cleanest honey. Mr. Adams went to his home and procured all of the buckets and vessels he could spare and filled them with the honey and several of his neighbors did likewise. Much of the honey was lost in the smash-up, but there was sufficient left to supply several families for some time. It is thought there a number of swarms of bees in the tree and that they had been storing honey in it for years.

The old buffalo trail which leads from the Blue Licks to the splendid meadow lands at Indian Old Fields and on to the rich valleys of the Red and Kentucky rivers still exists. In bygone days it constituted the main thoroughfare for region, and it is positively known that even such noted pioneers as Boone and Denton traveled in its wake. Though time has wrought many changes in the face of the adjacent country, the well-beaten path of the old trace seems to bid defiance to its touch, and can be followed with great accuracy through blue grass fields, and over rolling uplands and along the margin of winding streams. In its very neglect it still speaks of what countless numbers of buffalo, deer and elk must have plodded over its weary way in the days when Kentucky was dark and bloody.

Big Shipment of Cattle.

W. R. Pope, of Pikeville, and Frank Johnson, of Mt. Airy, made the largest shipment of cattle ever sent out of the Valley. A special train of eleven cars made the haul. A large part of the cattle came from Mr. Pope's Mt. Airy farm. The entire load amounts to nearly \$9,000.—Dunlap Tribune.
